Re: Summer Research Opportunity

Dear Igor,

I would be happy to have you work with my group over the summer. Regardless of how much time you can spend, I can guarantee you the desk and lab space as well as computational facilities that you might need. Hopefully your efforts to secure funding for a stipend are successful. The whole group looks forward to continuing our collaborative work on modeling the properties of polymer and water in the hydrophobic collapse of thermoresponsive PNIPAM polymers.

Sincerely,

Andrei Tokmakoff
